## Prostate Testing

With Christmas over, our next major event will be our PSA test session at the Abraham Darby Academy Madeley on 9<sup>th</sup> March. This is an appointment-only session running from 1pm to 3.30 and we currently have just 50 slots remaining.

If you are male, aged 40 or over, and you haven't had a PSA test in the last year we would encourage you to book a test.

You can select a slot by going to <https://mypsatests.org.uk>. For more information about PSA tests or our testing partners - the Graham Fulford Trust – go to <https://psatests.org.uk/>.

CHALLENGING PERCEPTIONS

# Staying Safe This Winter

**STAYING SAFE IN WINTER - ICE SAFETY**

water safety Scotland

- NEVER GO ONTO THE ICE.** There is no way of knowing whether it will take your weight/how thick the ice is/how cold, deep and fast the water beneath is.
- KEEP A SAFE DISTANCE FROM THE EDGE.** Fallen leaves and snow could obscure the water's boundary and cause slippery surfaces.
- CHECK FOR SAFETY SIGNAGE.** It is there to warn you of hazards you may not be aware of.
- ALWAYS SUPERVISE CHILDREN.**
- KEEP DOGS ON LEADS AND DON'T THROW BALLS/STICKS FOR THEM NEAR ICE.** Never go on to the ice to rescue a dog.
- IN AN EMERGENCY, CALL 999 AND GIVE CALM AND ACCURATE INFORMATION ABOUT THE SITUATION AND LOCATION.** Never go on to the ice to help.

**999**

## Staying Safe this Winter

In freezing conditions think about whether you need to leave your home.

- Be cautious and take extra care when outside
- Wear shoes or boots with a good grip
- Help vulnerable relatives and neighbours
- Keep an eye on the weather and plan ahead for changes
- When driving, pack warm clothes and essentials

## STAYING SAFE IN WINTER

Icy bodies of water can look beautiful and inviting, but they can pose a serious hazard. Each year, there are distressing incidents involving individuals who have made the wrong decision to venture onto frozen-over waters with often fatal consequences.

To help keep yourself and others safe, it's important to understand the risks associated with ice and take the necessary precautions.

### ICE SAFETY ADVICE

- Always supervise children. Just a moment's distraction could have serious consequences for a curious child.
- Keep a safe distance from the edge. Fallen leaves or snow could obscure the water's true boundary.
- Check for safety signage. This can help inform you of hazards in that area you may not be aware of.
- Keep dogs on leads. Otherwise they could end up on the ice and in danger. Also don't throw sticks and balls for dogs near ice.
- Most importantly, stay off the ice. Never be tempted to venture onto ice - you have no way of knowing how thick it is and how cold and deep the water beneath is. The water beneath could also be fast-flowing. Don't ever risk it.

## 5 Things to Know about Winter Weather Forecasts

- Snow or ice totals can vary greatly over short distances**  
A heavy snow band may form, dropping more snow in one location while significantly less snow falls just a few miles away.
- Winter forecasts can change frequently**  
Forecasts may change as new model data becomes available. Always check weather.gov for the latest information.
- Focus more on the winter storm's impacts**  
Don't focus too much on exact numbers, and consider the full range of possibilities.
- Know your winter weather terminology**  
If a Watch is issued, get prepared for hazardous weather. If a Warning or Advisory is issued, take action - hazardous weather is occurring or will occur soon.
- Rely on a dependable source for weather info**  
Choose your information sources wisely, and follow a name or organization you know and trust.

## Stay safe in cold weather

Help us help you make the right choice

- Wear multiple layers of thinner clothing and shoes with good grip.
- Go to a pharmacy when you start to feel unwell, even if it's just a cough.
- Access advice and out-of-hours GPs and pharmacists through NHS 111.
